# #1 Journal in the whole of JCR

**CA – A Cancer Journal for Clinicians**, is the highest-scoring journal in the 2014 Journal Citation Reports with an Impact Factor of 115.84.

The screenshot displays the journal's website. The top navigation bar includes the journal title 'CA: A Cancer Journal for Clinicians' and the American Cancer Society logo. A sidebar on the left contains sections for 'JOURNAL TOOLS' (alerts, RSS, profile, sample copy, recommendation), 'JOURNAL MENU' (home, issues, articles), 'GET ACCESS' (subscribe), 'FOR CONTRIBUTORS' (open, guidelines, submit), 'ABOUT THIS JOURNAL' (information, news, overview, board, permissions, advertise, contact), and 'SPECIAL FEATURES' (anywhere article, society family, best of journals, guidelines, patient pages, digital issue). The main content area shows the May/June 2014 issue (Volume 64, Issue 3, Pages 153-219) with links to previous and next issues. Below this, two featured articles are listed: 'Growth factor therapy may have a clinical benefit for patients with cancer with established febrile neutropenia' and 'Bevacizumab in neoadjuvant chemotherapy increases the pathological complete response rate in patients with triple-negative breast cancer'. Each article includes the author's name, publication date, DOI, and links to the abstract, full article (HTML), enhanced article (HTML), and PDF. A 'Wiley Online Library' logo is visible in the bottom right corner of the interface.

## Welcome

Author Services offers **many benefits** to journal authors, including:

- Single sign-on with Wiley Online Library. Create one account and use it on both sites.
- Find the journal that's right for your article.
- Track your accepted article through production (most journals).
- Free access to your published article and ability to nominate colleagues to receive free access (most journals).

Following are **a few tips** for using Author Services:

- To submit an article to a ScholarOne Manuscripts site, you will need to create a separate account on that site.
- When an article is accepted, the corresponding author receives an e-mail with a unique code and link. Logging in to Author Services with the same e-mail address where the alert is received automatically connects the author to the article. Alternatively, authors may register with any e-mail address: use the "add article" feature and enter the unique code contained in the initial e-mail to connect to the article. There may be a short delay from when the article is accepted by the journal and when it has been received at Wiley-Blackwell.
- Corresponding authors can sign in and provide co-authors' e-mail addresses; this enables co-authors to track their articles and receive free access to the final, published version.

To learn more about the features of this website and the useful information it contains, look below: **what would you like to do?**
